CRITICAL REVIEW

Plant Wax components: A New Approach to Estimating Intake and Diet Composition in Herbivores. *H. Dove and R. W. Mayes* 13

ARTICLES

Biochemical and Molecular Roles of Nutrients

Manganese Protects against Heart Mitochondrial Lipid Peroxidation in Rats Fed High Levels of Polyunsaturated Fatty Acids. *Elise A. Malecki and J. L. Greger* 27
Dietary Fish Oil Confers Direct Antiarrhythmic Properties on the Myocardium of Rats. *Salvatore Pepe and Peter L. McLennan* 34
Soybean Isoflavones Improve Cardiovascular Risk Factors without Affecting the Reproductive System of Peripubertal Rhesus Monkeys. *Mary S. Anthony, Thomas B. Clarkson, Claude L. Hughes, Jr., Timothy M. Morgan and Gregory L. Burke* 43
Modulation of Lysyl Oxidase by Dietary Copper in Rats. *Robert B. Rucker, Nadia Romero-Chapman, Toniel Wong, Jill Lee, Francene M. Steinberg, Carl McGee, Michael S. Clegg, Karen Reiser, Taru Kosonen, Janet Y. Uriu-Hare, Jerome Murphy and Carl L. Keen* 51
Biotin Deficiency Decreases Ornithine Transcarbamylase Activity and mRNA in Rat Liver. *Yuichi Maeda, Sumio Kawata, Yoshiaki Inui, Kazuto Fukuda, Takumi Igura and Yuji Matsuzawa* 61
Methionine Reduces the Valproic Acid-Induced Spina Bifida Rate in Mice without Altering Valproic Acid Kinetics. *Katharine Ehlers, Mohamed M. A. Elmazar and Heinz Nau* 67
Higher Postpartum Hepatic Triacylglycerol Concentrations in Dairy Cows with Free rather than Restricted Access to Feed During the Dry Period Are Associated with Lower Activities of Hepatic Glycerolphosphate Acyltransferase. *A. Marc Van den Top, Math J. H. Geelen, Theo Wensing, G. Henk Wentink, Arie Th. Van'T Klooster and Anton C. Beynen* 76
Dietary Casein Phosphopeptides Prevent Bone Loss in Aged Ovariectomized Rats. *Hiroshi Tsuchita, Toshiyuki Goto, Taki Shimizu, Yoko Yonehara and Tamotsu Kuwata* 86
Vitamin A Deficiency Diminishes the Salivary Immunoglobulin A Response and Enhances the Serum Immunoglobulin G Response to Influenza A Virus Infection in BALB/c Mice. *Charles B. Stephensen, Zina Moldoveanu and Nupur N. Gangopadhyay* 94

Community and International Nutrition

Low Birth Weight Reduces the Likelihood of Breast-Feeding among Filipino Infants. *Linda S. Adair and Barry M. Popkin* 103
Validity of Single-Weight Measurements to Predict Current Malnutrition and Mortality in Children. *Jan Van den Broeck, Roger Eeckels and Guy Massa* 113
Plasma Ascorbic Acid Concentrations Are Related to Cardiovascular Risk Factors in African-Americans. *Lynn Toohey, Mary A. Harris, Kenneth G. D. Allen and Christopher L. Melby* 121

Human and Clinical Nutrition

Human Serum Carotenoid Concentrations Are Related to Physiologic and Lifestyle Factors. *William E. Brady, Julie A. Mares-Perlman, Phyllis Bowen and Maria Stacewicz-Sapuntzakis* 129
Selenoprotein P Concentration in Plasma Is an Index of Selenium Status in Selenium-Deficient and Selenium-Supplemented Chinese Subjects. *Kristina E. Hill, Yiming Xia, Björn Åkesson, Martha E. Boeglin and Raymond F. Burk* 138
Maternal Underweight Status and Inadequate Rate of Weight Gain During the Third Trimester of Pregnancy Increase the Risk of Preterm Delivery. *Anna Maria Siega-Riz, Linda S. Adair and Calvin J. Hobel* 146
Purified Ferritin and Soybean Meal Can be Sources of Iron for Treating Iron Deficiency in Rats. *John L. Beard, Joseph W. Burton and Elizabeth C. Theil* 154
Dietary Soybean Protein Prevents Bone Loss in an Ovariectomized Rat Model of Osteoporosis. *Bahram H. Arjmandi, Lee Alekel, Bruce W. Hollis, Daxa Amin, Maria Stacewicz-Sapuntzakis, Peilin Guo and Subhash C. Kukreja* 161
Growth Failure and Altered Body Composition Are Established by One Month of Age in Infants with Bronchopulmonary Dysplasia. *Raye-Ann O. deRegnier, Theresa W. Guilbert, Marla M. Mills and Michael K. Georgieff* 168

Nutrient Metabolism

Absorption and Excretion of the Soy Isoflavone Genistein Rats. *Roger A. King, Jessica L. Broadbent and Richard J. Head* 176
Iron and Copper Interact during Their Uptake and Deposition in the Brain and Other Organs of Developing Rats Exposed to Dietary Excess of the Two Metals. *Andrew Crowe and Evan H. Morgan* 183
Maillard Reaction Products in Purified Diets Induce Taurine Depletion in Cats Which Is Reversed by Antibiotics. *Seungwook W. Kim, Quinton R. Rogers and James G. Morris* 195
Dietary β-Carotene Elevates Plasma Steady-State and Tissue Concentrations of β-Carotene and Enhances Vitamin A Balance in Preruminant Calves. *Peter P. Hoppe, Boon P. Chew, Anton Safer, Ingrid Stegemann and Hans K. Biesalski* 202
Interactions between Ruminal Degradable Nitrogen Intake and In Vitro Addition of Substrates on Patterns of Amino Acid Metabolism in Isolated Ovine Hepatocytes. *Timothy Mutsvangwa, Jock G. Buchanan-Smith and Brian W. McBride* 209
The Acrodermatitis Enteropathica Mutation Transiently Affects Zinc Metabolism in Human Fibroblasts. *Arthur Grider and Elizabeth M. Young* 219
Absorption and Metabolism of Lipids in Rats Depend on Fatty Acid Isomeric Position. *Toshiaki Aoyama, Kensuke Fukui, Kaori Taniguchi, Syuuji Nagaoka, Takashi Yamamoto and Yukio Hashimoto* 225
Methionine-Containing Peptides Can Be Used As Methionine Sources for Protein Accretion in Cultured C_2C_{12} and MAC-T Cells. *Yuanlong Pan, Patrick K. Bender, R. Michael Akers and Kenneth E. Webb, Jr.* 232
Folate Transport Pathways Regulate Urinary Excretion of 5-Methyltetrahydrofolate in Isolated Perfused Rat Kidney. *Robert T. Muldoon, Donna M. Ross and Kenneth E. McMartin* 242
The Caco-2 Cell Culture System Can be Used as a Model to Study Food Iron Availability. *Maria N. Garcia, Carol Flowers and James D. Cook* 251
Diet-Induced Nephrocalcinosis in Female Rats Is Irreversible and Is Induced Primarily before the Completion of Adolescence. *Catherine A. Peterson, David H. Baker and John W. Erdman, Jr.* 259
A High Protein Diet Does Not Improve Protein Synthesis in the Nonweight-Bearing Rat Tibialis Anterior Muscle. *Daniel Taillandier, Charles-Yannick Guezennec, Philippe Patureau-Mirand, Xavier Bigard, Maurice Arnal and Didier Attaix* 266
L-Glutamine Supplementation of a High Fat Diet Reduces Body Weight and Attenuates Hyperglycemia and Hyperinsulinemia in C57BL/6J Mice. *Emmanuel C. Opara, Ann Petro, Allyson Tevrizian, Mark N. Feinglos and Richard S. Surwit* 273
Lactitol Enhances Short-Chain Fatty Acid and Gas Production by Swine Cecal Microflora to a Greater Extent When Fermenting Low Rather Than High Fiber Diets. *Andrea Piva, Andrea Panciroli, Elena Meola and Andrea Formigoni* 280

Nutrient Requirements and Interactions

Severe Protein Deficiency and Repletion Alter Body and Brain Composition and Organ Weights in Infant Pigs. *Wilson G. Pond, Kenneth J. Ellis, Harry J. Mersmann, Julian P. Heath, Lennart P. Krook, Douglas G. Burrin, Mary A. Dudley and Hwai-Ping Sheng* 290

Wheat Bran Abolishes the Inverse Relationship between Calcium Load Size and Absorption Fraction in Women. *Connie M. Weaver, Robert P. Heaney, Dorothy Teegarden and Sharilyn M. Hinders* 303
Hemicellulose Does Not Affect Iron Bioavailability in Chicks. *Alyce D. Fly, Gail L. Czarnecki-Maulden, George C. Fahey, Jr. and Evan C. Titgemeyer* 308
Weight Loss Alters Organ Concentrations and Contents of Lead and Some Essential Divalent Metals in Rats Previously Exposed to Lead. *Shenggao Han, Xianwen Qiao, Scott Simpson, Pegah Ameri, Francis W. Kemp and John D. Bogden* 317
Response of Rainbow Trout (*Oncorhynchus mykiss*) Growing from 50 to 200 g to Supplements of Dibasic Sodium Phosphate in a Semipurified Diet. *Markus Rodehutscord* 324
Caco-2 Cell Iron Uptake from Meat and Casein Digests Parallels In Vivo Studies: Use of a Novel In Vitro Method for Rapid Estimation of Iron Bioavailability. *Raymond P. Glahn, Elizabeth M. Wien, Darrell R. van Campen and Dennis D. Miller* 332

Announcements 341

SUPPLEMENT

Stable Isotopic Tracers in Nutrition and Metabolism. *Satish C. Kalhan and Sooja K. Kim, editors* 343S

No. 2 FEBRUARY 1996

ARTICLES

Biochemical and Molecular Roles of Nutrients

Fermentable Carbohydrates Elevate Plasma Enteroglucagon but High Viscosity Is Also Necessary to Stimulate Small Bowel Mucosal Cell Proliferation in Rats. *J. M. Gee, W. Lee-Finglas, G. W. Wortley and I. T. Johnson* 373
Soybean Protein Suppresses Hepatic Lipogenic Enzyme Gene Expression in Wistar Fatty Rats. *Nobuko Iritani, Hiroko Hosomi, Hitomi Fukuda, Kayoko Tada and Hitoshi Ikeda* 380
Dietary α-Tocopherol Attenuates the Impact of γ-Tocotrienol on Hepatic 3-Hydroxy-3-Methylglutaryl Coenzyme A Reductase Activity in Chickens. *Asaf A. Qureshi, Bradley C. Pearce, Rosnah M. Nor, A. Gapor, David M. Peterson and Charles E. Elson* 389
Nutritional State and the Swelling-Induced Inhibition of Proteolysis in Perfused Rat Liver. *Stephan vom Dahl and Dieter Häussinger* 395
Hepatic Cytochrome P450 and UDP-Glucuronosyl Transferase Are Affected by Five Sources of Dietary Fiber in Germ-Free Rats. *Lionelle Nugon-Baudon, Nathalie Roland, Jean-Pierre Flinois and Phillipe Beaune* .. 403
Amylopectin Starch Induces Nonreversible Insulin Resistance in Rats. *C. Elke Wiseman, Janine A. Higgins, Gareth S. Denyer and Janette C. Brand Miller* 410
Dietary Energy Restriction in Mice Negatively Regulates Hepatic Glucose-Regulated Protein 78 (GRP78) Expression at the Posttranscriptional Level. *John B. Tillman, Patricia L. Mote, Joseph M. Dhahbi, Roy L. Walford and Stephen R. Spindler* 416
Exogenous Nucleotides Alter the Proliferation, Differentiation and Apoptosis of Human Small Intestinal Epithelium. *Mayumi Tanaka, Kaechoong Lee, Olga Martinez-Augustin, Youping He, Ian R. Sanderson and W. Allan Walker* 424

Community and International Nutrition

Vitamin A Supplementation Fails to Reduce Incidence of Acute Respiratory Illness and Diarrhea in Preschool-Age Indonesian Children. *Michael J. Dibley, Tonny Sadjimin, Chris L. Kjolhede and Lawrence H. Moulton* 434
Zinc Supplementation Reduces the Incidence of Persistent Diarrhea and Dysentery among Low Socioeconomic Children in India. *Sunil Sazawal, Robert E. Black, Maharaj K. Bhan, Sanju Jalla, Nita Bhandari, Anju Sinha, and Sharmila Majumdar* 443

Vitamin A Status of Indonesian Children Infected with *Ascaris lumbricoides* after Dosing with Vitamin A Supplements and Albendazole. *Sherry A. Tanumihardjo, Dewi Permaesih, Muherdiyantiningsih, Effendi Rustan, Kusnandi Rusmil, Alex C. Fatah, Steve Wilbur, Muhilal, Darwin Karyadi and James A. Olson* 451

Human and Clinical Nutrition

Products Based on a High Fiber Barley Genotype, but Not on Common Barley or Oats, Lower Postprandial Glucose and Insulin Responses in Healthy Humans. *Helena G. M. Liljeberg, Yvonne E. Granfeldt and Inger M. E. Björck* 458
Dietary Iron Supplementation Does Not Aggravate Experimental Malaria in Young Rats. *Marly A. Cardoso, Marcelo U. Ferreira, Georgina S. Ribeiro, Marilene D. V. C. Penteado and Heitor F. Andrade, Jr.* 467
Dietary *Aspergillus niger* Phytase Increases Iron Absorption in Humans. *Ann-Sofie Sandberg, Lena Rossander Hulthén and Maria Türk* 476
Digestibilities of Energy, Protein, Fat and Nonstarch Polysaccharides in a Low Fiber Diet and Diets Containing Coarse or Fine Whole Meal Rye Are Comparable in Rats and Humans. *Elisabeth Wisker, Knud Erik Bach Knudsen, Martina Daniel, Walter Feldheim and Björn O. Eggum* 481

Nutrient Metabolism

Biliary Manganese Excretion in Conscious Rats Is Affected by Acute and Chronic Manganese Intake but Not by Dietary Fat. *Elise A. Malecki, Gwendolyn M. Radzanowski, Thaddeus J. Radzanowski, Daniel D. Gallaher and J. L. Greger* 489
β-Carotene Absorption and Cleavage in Rats Is Affected by the Vitamin A Concentration of the Diet. *Trinette van Vliet, Martje Fentener van Vlissingen, Frank van Schaik and Henk van den Berg* 499
Dietary Antibiotics Decrease Taurine Loss in Cats Fed a Canned Heat-Processed Diet. *Seungwook W. Kim, Quinton R. Rogers and James G. Morris* 509
Muscle and Liver Protein Synthesis Adapt Efficiently to Food Deprivation and Refeeding in 12-Month-Old Rats. *Laurent Mosoni, Thierry Malmezat, Marie-Claude Valluy, Marie-Louise Houlier and Philippe Patureau Mirand* 516
Riboflavin-Binding Protein Induces Early Death of Chicken Embryos. *Christine M. Lee and Harold B. White, III* 523
Methionine and 2-Hydroxy-4-Methylthiobutanoic Acid Are Transported by Distinct Na^+-Dependent Systems in the Brush Border Membrane of the Chick Intestinal Epithelium. *David D. Maenz and Carmen M. Engele-Schaan* 529
Phylloquinone and Menaquinone-4 Distribution in Rats: Synthesis rather than Uptake Determines Menaquinone-4 Organ Concentrations. *H. H. W. Thijssen, M. J. Drittij-Reijnders and M. A. J. G. Fischer* 537
Moderate Food Restriction Abolishes the Pregnancy-Associated Rise in Serum Growth Hormone and Decreases Serum Insulin-Like Growth Factor-I (IGF-I) Concentrations without Altering IGF-I mRNA Expression in Rats. *Marcia H. Monaco and Sharon M. Donovan* 544

Nutrient Requirements and Interactions

Fermentation of Carbohydrate in Rat Ileal Excreta Is Enhanced with Cecal Inocula Compared with Fecal Inocula. *David J. Monsma and Judith A. Marlett* 554
Obese Pigs Fed a High Cholesterol Diet from Birth to 2 Months Are Less Susceptible than Lean Pigs to Atherosclerosis. *Anne M. Hackman, Wilson G. Pond, Harry J. Mersmann, William W. Wong, Lennart P. Krook and Shide Zhang* 564
The Protein Efficiency Ratios of 30:70 Mixtures of Animal:Vegetable Protein Are Similar or Higher than Those of the Animal Foods Alone. *Miguel Hernández, Irene Montalvo, Virginia Sousa and Angela Sotelo* 574

LETTERS TO THE EDITOR

Soybean Protease Inhibitors and Pancreatic Carcinogenesis. *Irvin E. Liener* 582
Soybean Protease Inhibitors and Pancreatic Carcinogenesis: A Reply to Liener. *Ann R. Kennedy* 584

Announcements 586

No. 3 MARCH 1996

ARTICLES

Biochemical and Molecular Roles of Nutrients

A Total Parenteral Nutrition Solution Supplemented with a Nucleoside and Nucleotide Mixture Sustains Intestinal Integrity, but Does Not Stimulate Intestinal Function after Massive Bowel Resection in Rats. *Shohei Iijima, Toshimasa Tsujinaka, Masanori Kishibuchi, Yoshihiro Kido, Chikara Ebisui, Kazuomi Kan, Masahiko Yano and Takesada Mori* 589

Development of Insulin Resistance in the Rat Is Dependent on the Rate of Glucose Absorption from the Diet. *Janine A. Higgins, Janette C. Brand Miller and Gareth S. Denyer* 596

(*n*-3) Polyunsaturated Fatty Acids Modulate the Expression of Functionally Associated Molecules on Human Monocytes In Vitro. *David A. Hughes, Susan Southon and Andrew C. Pinder* 603

High Carbohydrate Diet and Starvation Regulate Lipogenic mRNA in Rats in a Tissue-Specific Manner. *Tae-Suk Kim and Hedley C. Freake* 611

Auditory Startle Response Is Diminished in Rats after Recovery from Perinatal Copper Deficiency. *Joseph R. Prohaska and Richard G. Hoffman* 618

Community and International Nutrition

Acute Respiratory Infections Prevent Improvement of Vitamin A Status in Young Infants Supplemented with Vitamin A. *M. Mujibur Rahman, D. Mahalanabis, J. O. Alvarez, M. A. Wahed, M. A. Islam, D. Habte, and M. A. Khaled* 628

Human and Clinical Nutrition

Proteinase Inhibitors Induce Selective Stimulation of Human Trypsin and Chymotrypsin Secretion. *Janne E. Reseland, Halvor Holm, Morten B. Jacobsen, Trond G. Jenssen and Lars E. Hanssen* 634

α-Tocopherol Influences In Vivo Indices of Lipid Peroxidation in Postmenopausal Women Given Fish Oil. *Rosemary C. Wander, Shi-Hua Du and Sharon O. Ketchum* 643

Nutrient Metabolism

Dietary Fatty Acid Profile Influences the Composition of Skeletal Muscle Phospholipids in Rats. *Kerry J. Ayre and Anthony J. Hulbert* 653

Parenteral Glycyl-L-Tyrosine Maintains Tyrosine Pools and Supports Growth and Nitrogen Balance in Phenylalanine-Deficient Rats. *Peter Stehle, Sabine Weber and Peter Fürst* 663

Carbon Flow through the Hepatic Folate-Dependent One-Carbon Pool Is Not Altered in Vitamin A-Deficient Rats. *Kevin L. Schalinske and Robert D. Steele* 668

Hypoxia Inhibits Gastric Emptying and Gastric Acid Secretion in Conscious Rats. *Ryoichi Yamaji, Miki Sakamoto, Kazutaka Miyatake and Yoshihisa Nakano* 673

Nutrient Requirements and Interactions

Dietary Butter Protects against Ultraviolet Radiation-Induced Suppression of Contact Hypersensitivity in Skh:HR-1 Hairless Mice. *Ranald B. Cope, Meira Bosnic, Christa Boehm-Wilcox, Detlef Mohr and Vivienne E. Reeve* 681

Brain Iron and Behavior of Rats are Not Normalized by Treatment of Iron Deficiency Anemia during Early Development. *Barbara T. Felt and Betsy Lozoff* 693

SPECIAL REPORT

Genetically Modified Crops

The Composition of Glyphosate-Tolerant Soybean Seeds Is Equivalent to That of Conventional Soybeans. *Stephen R. Padgette, Nancy Biest Taylor, Debbie L. Nida, Michele R. Bailey, John MacDonald, Larry R. Holden and Roy L. Fuchs* 702
The Feeding Value of Soybeans Fed to Rats, Chickens, Catfish and Dairy Cattle Is Not Altered by Genetic Incorporation of Glyphosate Tolerance. *Bruce G. Hammond, John L. Vicini, Gary F. Hartnell, Mark W. Naylor, Christopher D. Knight, Edwin H. Robinson, Roy L. Fuchs and Stephen R. Padgette* 717
The Expressed Protein in Glyphosate-Tolerant Soybean, 5-Enolypyruvylshikimate-3-Phosphate Synthase from *Agrobacterium* sp. Strain CP4, Is Rapidly Digested In Vitro and Is Not Toxic to Acutely Gavaged Mice. *Leslie A. Harrison, Michele R. Bailey, Mark W. Naylor, Joel E. Ream, Bruce G. Hammond, Debbie L. Nida, Barry L. Burnette, Thomas E. Nickson, Timothy A. Mitsky, Mary L. Taylor, Roy L. Fuchs and Stephen R. Padgette* 728

BOOK REVIEW

Bioavailability of Nutrients for Animals. *Reviewed by Duane E. Ullrey* 741

Announcements 743

SUPPLEMENT

Fortifying Policy with Science—The Case of Folate. *Gerald E. Gaull, editor* 745S

No. 4 APRIL 1996

ARTICLES

Biographical Article

Remembering Hamish Munro (1915–1994). *Robert M. Russell* 791

History of Nutrition

Emil Abderhalden: His Contribution to the Nutritional Biochemistry of Protein. *George Wolf* 794

Biochemical and Molecular Roles of Nutrients

Oxidized Ethyl Linoleate Induces Mucosal Hypertrophy of the Large Intestine and Affects Cecal Fermentation of Dietary Fiber in Rats. *Hiroshi Hara, Kazuo Miyashita, Satoshi Ito and Takanori Kasai* 800
Aspects of Cardiomyopathy Are Exacerbated by Elevated Dietary Fat in Copper-Restricted Rats. *Thunder Jalili, Denis M. Medeiros and Robert E. C. Wildman* 807
Dietary Components Modify the Ability of Garlic to Suppress 7,12-Dimethylbenz(a)anthracene-Induced Mammary DNA Adducts. *Harunobu Amagase, Eric M. Schaffer and John A. Milner* 817

Transgenic Mice That Overexpress Metallothionein-I Resist Dietary Zinc Deficiency. *Tim Dalton, Kai Fu, Richard D. Palmiter and Glen K. Andrews* 825
1,25-Dihydroxycholecalciferol Regulates Rat Intestinal Calbindin D_{9k} Posttranscriptionally. *Catherine Duflos, Claire Bellaton, Nathalie Baghdassarian, Mylène Gadoux, Danielle Pansu and Felix Bronner* 834
Dietary Zinc Deficiency Alters 5α-Reduction and Aromatization of Testosterone and Androgen and Estrogen Receptors in Rat Liver. *Ae-Son Om and Kyung-Won Chung* 842
The CD4/CD8 Ratio in the Blood Does Not Reflect the Response of This Index in Secondary Lymphoid Organs of Weanling Mice in Models of Protein-Energy Malnutrition Known to Depress Thymus-Dependent Immunity. *Wen-Hui Lee and Bill D. Woodward* 849
Apolipoprotein B mRNA Editing Is Preserved in the Intestine and Liver of Zinc-Deficient Rats. *Fatiha Nassir, Raymond K. Blanchard, Andrzej Mazur, Robert J. Cousins and Nicholas O. Davidson* 860

Human and Clinical Nutrition

Insulin Increases Lipogenic Enzyme Activity in Human Adipocytes in Primary Culture. *Naïma Moustaïd, Brynn H. Jones and James W. Taylor* 865
A Diet High in Wheat Fiber Decreases the Bioavailability of Soybean Isoflavones in a Single Meal Fed to Women. *Bee-Yen Tew, Xia Xu, Huei-Ju Wang, Patricia A. Murphy and Suzanne Hendrich* 871

Nutrient Metabolism

Proline Is Synthesized from Glutamate during Intragastric Infusion but Not during Intravenous Infusion in Neonatal Piglets. *Janice M. Murphy, Susan J. Murch and Ronald O. Ball* 878
Dietary Long-Chain Polyunsaturated Fatty Acids Influence Tissue Fatty Acid Composition in Rats at Weaning. *Antonio Suárez, María del Carmen Ramírez, María José Faus and Angel Gil* 887
Bone Growth Rather than Myofibrillar Protein Turnover Is Strongly Affected by Nutritional Restriction at Early Weaning of Calves. *Masayuki Funaba, Shigemitsu Saito, Kensuke Kagiyama, Tsunenori Iriki and Matanobu Abe* 898
Protein and Lipid Refeeding Changes Protein Metabolism and Colonic but Not Small Intestinal Morphology in Protein-Depleted Rats. *Zhensheng Qu, Pei Ra Ling, Steven R. Tahan, Pilar Sierra, Andrew B. Onderdonk and Bruce R. Bistrian* 906
Short-Term Metabolic Responses Do Not Differ Between Neonatal Piglets Fed Formulas Containing Hydrolyzed or Intact Soy Proteins. *Ruurd T. Zijlstra, Anna M. Mies, Barbara A. McCracken, Jack Odle, H. Rex Gaskins, Eric L. Lien and Sharon M. Donovan* 913
Changes in Gut and Liver Glucose, Lactate, Insulin, and Oxygen Flux in Mature Ewes during Mesenteric or Abdominal Vena Cava Glucose Infusion. *H. C. Freetly and J. Klindt* 924
Dietary Restriction Induces Biochemical and Morphometric Changes in the Small Intestine of Nursing Piglets. *María C. Núñez, Juan D. Bueno, María V. Ayudarte, Antonio Almendros, Antonio Ríos, María D. Suárez and Angel Gil* 933
Somatotropin Treatment Does Not Affect Nonesterified Fatty Acid Response to Adrenergic Injections in Underfed or Overfed Nonlactating Cows. *Anne Ferlay, Yves Chilliard, Anne-Marie Sala, Christine Durier and François Bocquier* 945
Gut Endogenous Nitrogen and Amino Acid Excretions in Adult Domestic Cats Fed a Protein-free Diet or an Enzymatically Hydrolyzed Casein-Based Diet. *Wouter H. Hendriks, Paul J. Moughan and Michael F. Tarttelin* 955
Kinetic Model of Molybdenum Metabolism Developed from Dual Stable Isotope Excretion in Men Consuming a Low Molybdenum Diet. *Katherine H. Thompson and Judith R. Turnlund* 963

Nutrient Requirements and Interactions

Long-Term Administration of High Dose Vitamin A to Rats Does Not Cause Fetal Malformations: Macroscopic, Skeletal and Physicochemical Findings. *Hans K. Biesalski, Christian Hemmes, Magdy El Hanafy, Harald Weiser, Horst Zschaebitz and Eckart Stofft* 973
The Riboflavin Requirement of Adult Dogs at Maintenance Is Greater than Previous Estimates. *Jill L. Cline, Jack Odle and Robert A. Easter* 984

Nutrition, Pharmacology, and Toxicology

Feeding of Potato, Tomato and Eggplant Alkaloids Affects Food Consumption and Body and Liver Weights in Mice. *Mendel Friedman, P. R. Henika and B. E. Mackey* 989

LETTERS TO THE EDITOR

Dietary Saturated Fatty Acids and LDL Receptor Activity. *K. C. Hayes and Pramod Khosla* 1000
Dietary Saturated Fatty Acids and LDL Receptor Activity: A Response to Hayes and Khosla. *Arthur F. Stucchi and Robert J. Nicolosi* 1002

SYMPOSIA

Symposium: Consumer Issues in Biotechnology: Genetically Engineered Foods

Industry's Responsibility to the Consumer. *James W. Lauderdale* 1007S
A Government Agency's Responsibility to the Consumer. *Alvin L. Young and Marti R. Asner* 1010S
The Administration's Responsibility to the Consumer. *Catherine E. Woteki and George Vermont* 1013S
Biotechnology and Society: We Scientists Have Responsibilities Too. *Gerald E. Gaull and Robin W. Yeaton Woo* 1017S

Symposium: Dietary Guidelines for Children: A Focus on Fat

Introduction. *Gregory D. Miller* 1020S
A Review of the Canadian "Nutrition Recommendations Update: Dietary Fat and Children." *Stanley H. Zlotkin* 1022S
Dietary Guidelines for Children: U.S. Recommendations. *Ronald E. Kleinman, Laurence F. Finberg, William J. Klish and Ronald N. Lauer* 1028S
Considerations about Dietary Fat Restrictions for Children. *Fima Lifshitz and Omer Tarim* 1031S
Dietary Guidelines in Perspective. *Alfred E. Harper* 1042S

Symposium: Formation, Metabolism and Physiologic Effects of Oxidatively Modified Low Density Lipoprotein

Overview. *Rachel Shireman* 1049S
The Role of Oxidized Low Density Lipoprotein in Atherogenesis. *Ishwarlal Jialal and Sridevi Devaraj* 1053S
Dietary Fatty Acids, Low Density Lipoprotein Composition and Oxidation and Primate Atherosclerosis. *Michael J. Thomas and Lawrence L. Rudel* 1058S
Mechanisms of Metal Ion-Dependent Oxidation of Human Low Density Lipoprotein. *Sean M. Lynch and Balz Frei* 1063S
Prevention of Atherosclerosis with Dietary Antioxidants: Fact or Fiction? *P. Barton Duell* 1067S
Oxidized Low Density Lipoproteins Alter Macrophage Lipid Uptake, Apoptosis, Viability and Nitric Oxide Synthesis. *Xiaochun Yang, Narmer F. Galeano, Matthias Szabolcs, Robert R. Sciacca and Paul J. Cannon* 1072S

Symposium: Biological Effects of Dietary Arachidonic Acid

Introduction. *J. Bruce German, Cora J. Dillard and Jay Whelan* 1076S
Is Dietary Arachidonic Acid Necessary for Feline Reproduction? *Robert J. Pawlosky and Norman Salem, Jr.* 1081S
Antagonistic Effects of Dietary Arachidonic Acid and n-3 Polyunsaturated Fatty Acids. *Jay Whelan* ... 1086S
Arachidonic Acid Status of Human Infants: Influence of Gestational Age at Birth and Diets with Very Long Chain n-3 and n-6 Fatty Acids. *Susan E. Carlson* 1092S
Arachidonate Has Protumor-Promoting Action that is Inhibited by Linoleate in Mouse Skin Carcinogenesis. *Susan M. Fischer, Ruth A. Hagerman, Evelyn Li-Stiles, Herng-Hsiang Lo, Regina E. Maldve, Martha A. Belury and Mary F. Locniskar* 1099S
Polyunsaturated Fatty Acid Regulation of Hepatic Gene Transcription. *Steven D. Clarke and Donald B. Jump* 1105S
Short-term Diets Rich in Arachidonic Acid Influence Plasma Phospholipid Polyunsaturated Fatty Acid Levels and Prostacyclin and Thromboxane Production in Humans. *Andrew J. Sinclair and Neil J. Mann* 1110S

Symposium: Glutamine Nutrition and Metabolism: Bridging Clinical Medicine and Basic Science

Enteral Glutamine Supplementation for the Very Low Birthweight Infant: Plasma Amino Acid Concentrations. *J. C. Roig, William H. Meetze, Nancy Auestad, Tammy Jasionowski, Mark Veerman, Cristin A. McMurray and Josef Neu* 1115S
Characterization of Glutaminase in the Developing Rat Small Intestine. *Vivek Shenoy, J. C. Roig, Paul Kubilis and Josef Neu* 1121S
The Role of Glutamine as an Energy Source in the Developing Rat Lung. *Renee Ellen Fox, Irene B. Hopkins, Erwin B. Cabacungan and J. Tyson Tildon* 1131S
Enteral Glutamine Modulates Renal Glutamine Utilization. *Tom Welbourne, Xinjie Mu and Sarah Evans* 1137S
Glutamine Metabolism and Transport in Skeletal Muscle and Heart and Their Clinical Relevance. *Michael J. Rennie, Aamir Ahmed, Shihab E. O. Khogali, Sylvia Y. Low, Harinder S. Hundal and Peter M. Taylor* 1142S

Symposium: Nutritional Advances in Human Bone Metabolism

Introduction. *John J. B. Anderson* 1150S
Calcium, Phosphorus and Human Bone Development. *John J. B. Anderson* 1153S
Vitamin D and Bone Health. *Michael F. Holick* 1159S
Calcium and Vitamin D Nutritional Needs of Elderly Women. *Bess Dawson-Hughes* 1165S
Changing Phosphorus Content of the U.S. Diet: Potential for Adverse Effects on Bone. *Mona S. Calvo and Youngmee K. Park* 1168S
Chemistry, Nutritional Sources, Tissue Distribution and Metabolism of Vitamin K with Special Reference to Bone Health. *Martin J. Shearer, Alexandra Bach and Martin Kohlmeier* 1181S
Effects of Vitamin K on Bone Mass and Bone Metabolism. *Cees Vermeer, Birgit L. M. G. Gijsbers, Alexandra M. Crāciun, Monique M. C. L. Groenen-van Dooren and Marjo H. J. Knapen* 1187S
Transport of Vitamin K to Bone in Humans. *Martin Kohlmeier, Andreas Salomon, Jörg Saupe and Martin J. Shearer* 1192S

Symposium: Prooxidant Effects of Antioxidant Vitamins

Introduction. *Victor Herbert* 1197S
Oxidant-Antioxidant Status Alterations in Cancer Patients: Relationship to Tumor Progression. *Mariette Gerber, Cecile Astre, Claire Ségala, Monique Saintot, Jacqueline Scali, Joëlle Simony-Lafontaine, Jean Grenier and Henri Pujol* 1201S
Benefits and Liabilities of Vitamin A and Carotenoids. *James Allen Olson* 1208S
Vitamin C-Driven Free Radical Generation from Iron. *Victor Herbert, Spencer Shaw and Elizabeth Jayatilleke* 1213S
The Dual Roles of Nutrients as Antioxidants and Prooxidants: Their Effects on Tumor Cell Growth. *Joel L. Schwartz* 1221S

Symposium: Subcellular Compartmentation of Folate Metabolism

Symposium on the Subcellular Compartmentation of Folate Metabolism. *Conrad Wagner* 1228S

Colloquium: Homocyst(e)ine, Vitamins and Arterial Occlusive Diseases

Homocysteine, Vitamins and Arterial Occlusive Disease: An Overview. *Irwin H. Rosenberg* 1235S
Plasma Homocyst(e)ine: A Risk Factor for Arterial Occlusive Diseases. *M. R. Malinow* 1238S
The Hordaland Homocysteine Study: The Opposite Tails Odds Ratios Reveal Differential Effects of Gender and Intake of Vitamin Supplements at High and Low Plasma Total Homocysteine Concentrations. *Helga Refsum, Ottar Nygård, Gunnar Kvåle, Per Magne Ueland and Stein Emil Vollset* 1244S
Relationship among Homocyst(e)ine, Vitamin B-12 and Cardiac Disease in the Elderly: Association between Vitamin B-12 Deficiency and Decreased Left Ventricular Ejection Fraction. *Barry C. Herzlich, Edgar Lichstein, Nancy Schulhoff, Martin Weinstock, Murali Pagala, Kadirimangalam Ravindran, Tatsuji Namba, F. Javier Nieto, Sally P. Stabler, Robert H. Allen and M. R. Malinow* 1249S
Plasma Homocysteine Concentrations in a Population with a Low Coronary Heart Disease Prevalence. *Johan B. Ubbink, Rhena Delport and W. J. Hayward Vermaak* 1254S
Relationship between Plasma Homocysteine, Vitamin Status and Extracranial Carotid-Artery Stenosis in the Framingham Study Population. *Jacob Selhub, Paul F. Jacques, Andrew G. Bostom, Ralph B. D'Agostino, Peter W. F. Wilson, Albert J. Belanger, Daniel H. O'Leary, Philip A. Wolf, David Rush, Ernst J. Schaefer and Irwin H. Rosenberg* 1258S
The Use of Homocysteine and Other Metabolites in the Specific Diagnosis of Vitamin B-12 Deficiency. *Sally P. Stabler, John Lindenbaum and Robert H. Allen* 1266S
Treatment of Hyperhomocyst(e)inemia: Physiological Basis. *Soo-Sang Kang* 1273S
Vitamins as Homocysteine-Lowering Agents. *Lars Brattström* 1276S
Reduced, Oxidized and Protein-Bound Forms of Homocysteine and Other Aminothiols in Plasma Comprise the Redox Thiol Status—A Possible Element of the Extracellular Antioxidant Defense System. *Per M. Ueland, M. Azam Mansoor, Anne B. Guttormsen, Fredrik Müller, Pål Aukrust, Helga Refsum and Asbjørn M. Svardal* 1281S
Homocysteine and Hemostasis: Pathogenetic Mechanisms Predisposing to Thrombosis. *Peter C. Harpel, Xiaoxia Zhang and Wolfgang Borth* 1285S
Homocysteine, EDRF and Endothelial Function. *Gilbert R. Upchurch, Jr., George N. Welch and Joseph Loscalzo* 1290S
Human Homocysteine Catabolism: Three Major Pathways and Their Relevance to Development of Arterial Occlusive Disease. *Nicholas P. B. Dudman, Xue-Wei Guo, Ross B. Gordon, Paul A. Dawson and David E. L. Wilcken* 1295S

Conference: Molecular Aspects of Vitamin and Mineral Nutrition during Avian Development

Molecular Aspects of Vitamin and Mineral Nutrition during Avian Development. *Mark P. Richards* 1301S
Sudden Death of Chicken Embryos with Hereditary Riboflavin Deficiency. *Harold B. White III* 1303S
Developmental Expression and Vitamin D Regulation of Calbindin-D_{28K} in Chick Embryonic Yolk Sac Endoderm. *Rocky S. Tuan and Eiko Suyama* 1308S
Avian Metallothioneins: Structure, Regulation and Evolution. *Glen K. Andrews, Lawrence P. Fernando, Kirsten L. Moore, Tim P. Dalton and Rodney J. Sobieski* 1317S

Conference: Altering Ruminal Nitrogen Metabolism to Improve Protein Utilization

Introduction. *Glen A. Broderick* 1324S
Ruminal Microbial Metabolism of Peptides and Amino Acids. *R. John Wallace* 1326S
Effect of Rumen Protozoa on Nitrogen Utilization by Ruminants. *Jean-Pierre Jouany* 1335S
Maximizing Microbial Protein Synthesis in the Rumen. *Jeffrey L. Firkins* 1347S

No. 5 MAY 1996

Critical Review

Modulation of Inflammation and Cytokine Production by Dietary (n-3) Fatty Acids. *Willem L. Blok, Martijn B. Katan and Jos W. M. Van der Meer* 1515

Biochemical and Molecular Roles of Nutrients

Dietary (n-9) Eicosatrienoic Acid from a Cultured Fungus Inhibits Leukotriene B_4 Synthesis in Rats and the Effect Is Modified by Dietary Linoleic Acid. *Leslie G. Cleland, Robert A. Gibson, Mark A. Neumann, Tomohito Hamazaki, Kengo Akimoto and Michael J. James* 1534
Dietary Polyunsaturated Fatty Acids Modulate Responses of Pigs to *Mycoplasma hyopneumoniae* Infection. *John J. Turek, Ingrid A. Schoenlein, Bruce A. Watkins, William G. Van Alstine, L. Kirk Clark and Kay Knox* 1541
Dietary Fish Oil Enhances Insulin Sensitivity in Miniature Pigs. *Margaret T. Behme* 1549
Brain Neutral Lipids and Phospholipids Are Modified by Long-Term Feeding of Beef Tallow vs. Corn Oil Diets. *Ruth S. MacDonald, Wen Zhang, Jian-Ping Zhang and Grace Y. Sun* 1554
Dietary Myristic Acid Alters Acylated Proteins in Activated Murine Macrophages. *Neil E. Hubbard, Robert J. Socolich and Kent L. Erickson* 1563
A Nucleoside-Nucleotide Mixture and Its Components Increase Lymphoproliferative and Delayed Hypersensitivity Responses in Mice. *Keiko Yamauchi, Andrew A. Adjei, Clement K. Ameho, Yin-Ching Chan, Anil D. Kulkarni, Seiji Sato, Keiichi Okamoto and Shigeru Yamamoto* 1571
Maternal Protein Restriction Influences the Programming of the Rat Hypothalamic-Pituitary-Adrenal Axis. *Simon C. Langley-Evans, David S. Gardner and Alan A. Jackson* 1578
An Orally Supplemented Mononucleotide Mixture Prevents the Decrease in T Cell-Dependent Humoral Immunity in C57BL/6 Mice Fed a Nucleotide-Free Diet. *Harumi Jyonouchi and Sining Sun* 1586

Human and Clinical Nutrition

Intake of Rye Bread by Ileostomists Increases Ileal Excretion of Fiber Polysaccharide Components and Organic Acids but Does Not Increase Plasma or Urine Lignans and Isoflavonoids. *Dan Pettersson, Per Åman, Knud Erik Bach Knudsen, Eva Lundin, Jie-Xian Zhang, Göran Hallmans, Helena Härkönen and Herman Adlercreutz* 1594

Nutrient Metabolism

D-Tagatose Is a Bulk Sweetener with Zero Energy Determined in Rats. *G. Livesey and J. C. Brown* 1601
Relationship of Protein Synthesis to mRNA Levels in the Liver of Chicks under Various Nutritional Conditions. *Kazumi Kita, Shigusa Matsunami and Jun-Ichi Okumura* 1610
Retinol Is Sequestered in the Bone Marrow of Vitamin A–Deficient Rats. *Sally S. Twining, David P. Schulte, Patricia M. Wilson, Brian L. Fish and John E. Moulder* 1618
Rat Plasma Triglycerides and Hepatic Fatty Acid Synthetase mRNA, but Not Apolipoprotein B and A-IV mRNA, Respond to Dietary Fat Content. *Suzette Middleton and Barbara O. Schneeman* 1627
Dietary Protein Modifies Oxidized Cholesterol-Induced Alterations of Linoleic Acid and Cholesterol Metabolism in Rats. *Kyoichi Osada, Takehiro Kodama, Kaori Minehira, Koji Yamada and Michihiro Sugano* 1635
Rates of Lipid Metabolism in Adipose Tissue of Pigs Adapt to Lactational State and Dietary Energy Restriction. *Katrine L. S. Parmley, Celio R. Machado and John P. McNamara* 1644
Recombinant Bovine Somatotropin Decreases Hepatic Amino Acid Catabolism in Female Rats. *Kenneth P. Blemings, Mark J. Gahl, Thomas D. Crenshaw and Norlin J. Benevenga* 1657
Peptide-Bound Methionine Can Be a Source of Methionine for the Synthesis of Secreted Proteins by Mammary Tissue Explants from Lactating Mice. *Shiping Wang, Kenneth E. Webb, Jr. and Michael R. Akers* 1662
Milk Carnitine Affects Organ Carnitine Concentration in Newborn Rats. *Carlos A. Flores, Caroline Hu, John Edmond and Otakar Koldovský* 1673
Pivalate Affects Carnitine Status but Causes No Severe Metabolic Changes in Rat Liver. *Hiroshi Nakajima, Naoki Kodo, Fumio Inoue, Zenro Kizaki, Sadayuki Nukina, Akihiko Kinugasa and Tadashi Sawada* .. 1683

Nutrient Requirements and Interactions

Procyanidin from Black Beans (*Phaseolus vulgaris*) Inhibits Nutrient and Electrolyte Absorption in Isolated Rat Ileum and Induces Secretion of Chloride Ion. *Lori J. Silverstein, Barry G. Swanson and David F. Moffett* 1688
Dietary Choline Requirement of Juvenile Red Drum (*Sciaenops ocellatus*). *Steven R. Craig and Delbert M. Gatlin, III* 1696
High Zinc Concentrations in Culture Media Affect Copper Uptake and Transport in Differentiated Human Colon Adenocarcinoma Cells. *Philip G. Reeves, Mary Briske-Anderson and Samuel M. Newman, Jr.* .. 1701

Neuroscience and Nutrition

A Low-Protein Diet Blocks Development of Hyperphagia and Obesity in Rats with Hypothalamic Knife Cuts. *Jerry G. Vander Tuig and William M. Beneke* 1713
Meal Patterns Reveal Differential Effects of Vagotomy and Tropisetron on Responses to Indispensable Amino Acid Deficiency in Rats. *Lesa F. Erecius, Kimberly D. Dixon, Jennifer C. Jiang and Dorothy W. Gietzen* 1722

Issues and Opinions

An Evolutionary Perspective Enhances Understanding of Human Nutritional Requirements. *S. Boyd Eaton, Stanley B. Eaton III, Melvin J. Konner and Marjorie Shostak* 1732

ARTICLES

Biochemical and Molecular Roles of Nutrients

Atlantic Salmon (*Salmo salar*) Fed L-Carnitine Exhibit Altered Intermediary Metabolism and Reduced Tissue Lipid, but No Change in Growth Rate. *Hong Ji, Terence M. Bradley and George C. Tremblay* 1937

Dietary (n-3) Polyunsaturated Fatty Acids Improve Adipocyte Insulin Action and Glucose Metabolism in Insulin-Resistant Rats: Relation to Membrane Fatty Acids. *Jing Luo, Salwa W. Rizkalla, Josette Boillot, Catherine Alamowitch, Hassan Chaib, Françoise Bruzzo, Nelly Desplanque, Anne-Marie Dalix, Georges Durand and Gérard Slama* 1951

Exercise Down-Regulates Hepatic Lipogenic Enzymes in Food-Deprived and Refed Rats. *Margaret A. Griffiths, Russ Fiebig, Mitchell T. Gore, David H. Baker, Karyn Esser, Lawrence Oscai and Li Li Ji* ... 1959

Amaranth and Its Oil Inhibit Cholesterol Biosynthesis in 6-Week-Old Female Chickens. *Asaf A. Qureshi, James W. Lehmann and David M. Peterson* 1972

Dietary Guar Gum Alters Colonic Microbial Fermentation in Azoxymethane-Treated Rats. *Gary A. Weaver, Colette T. Tangel, Jean A. Krause, Harlan D. Alpern, Paul L. Jenkins, Margaret M. Parfitt and James J. Stragand* 1979

Community and International Nutrition

Functional and Psychic Deterioration in Elderly People May Be Aggravated by Folate Deficiency. *Rosa M[a] Ortega, Leocadio Rodríguez Mañas, Pedro Andrés, M[a] Jesús Gaspar, Francisco Robles Agudo, Angel Jiménez and Tomás Pascual* 1992

Human and Clinical Nutrition

A Soy Protein Isolate Rich in Genistein and Daidzein and Its Effects on Plasma Isoflavone Concentrations, Platelet Aggregation, Blood Lipids and Fatty Acid Composition of Plasma Phospholipid in Normal Men. *Melinda J. Gooderham, Herman Adlercreutz, Sirpa T. Ojala, Kristiina Wähälä and Bruce J. Holub* 2000

Nutrient Metabolism

Soy Protein Concentrate and Isolated Soy Protein Similarly Lower Blood Serum Cholesterol but Differently Affect Thyroid Hormones in Hamsters. *Susan M. Potter, Joy Pertile and M. D. Berber-Jimenez* 2007

Dose-Dependent Production of Mammalian Lignans in Rats and In Vitro from the Purified Precursor Secoisolariciresinol Diglycoside in Flaxseed. *Sharon E. Rickard, Lindy J. Orcheson, Maja M. Seidl, Lumonadio Luyengi, Harry H. S. Fong and Lilian U. Thompson* 2012

Food Deprivation Modifies Fatty Acid Partitioning and β-Oxidation Capacity in Rat Liver. *Margaret D. Andriamampandry, Mohamed Bnouham, Delphine Michard, Geneviève Gutbier, Yvon Le Maho and Claude Leray* 2020

Reduced Digestibility of Beef Tallow and Cocoa Butter Affects Bile Acid Excretion and Reduces Hepatic Esterified Cholesterol in Rats. *Cathy C. Monsma, Daniel D. Gallaher and Denise M. Ney* 2028
Energy Metabolism and Protein Balance in Growing Rats Housed in 18°C or 28°C Environments and Fed Different Levels of Dietary Protein. *Xin-Quan Zhao, Henry Jørgensen, Vince M. Gabert and Bjørn O. Eggum* 2036

Nutrient Requirements and Interactions

Long-Term Low Ascorbic Acid Intake Reduces Bone Mass in Guinea Pigs. *Deborah E. Kipp, C. Eric Grey, Michele E. McElvain, Donald B. Kimmel, Ralph G. Robinson and Barbara P. Lukert* 2044
Hepatic Betaine-Homocysteine Methyltransferase Activity in the Chicken Is Influenced by Dietary Intake of Sulfur Amino Acids, Choline and Betaine. *Jason L. Emmert, Timothy A. Garrow and David H. Baker* 2050

Biochemical and Molecular Roles of Nutrients

Intestinal Hydrolytic Activity in Young Mink (*Mustela vison*) Develops Slowly Postnatally and Exhibits Late Sensitivity to Glucocorticoids. *Per T. Sangild and Jan Elnif* 2061
Expression of Heat Shock Protein 70 in Rat Spleen Lymphocytes is Affected by Age but Not by Food Restriction. *Mohammad A. Pahlavani, Melissa D. Harris, Susan A. Moore and Arlan Richardson* 2069
Exocrine Pancreatic Secretions in Growing Pigs Fed Diets Containing Fish Oil, Rapeseed Oil or Coconut Oil. *Vince M. Gabert, Mette S. Jensen, Henry Jørgensen, Ricarda M. Engberg and Søren K. Jensen* 2076
Dietary Lipid Source Alters Murine Macrophage/Vascular Smooth Muscle Cell Interactions In Vitro. *Yang-Yi Fan, Robert S. Chapkin and Kenneth S. Ramos* 2083
Restricted Uptake of Dietary Coenzyme Q Is in Contrast to the Unrestricted Uptake of α-Tocopherol into Rat Organs and Cells. *Yiyi Zhang, Mikael Turunen and Eeva-Liisa Appelkvist* 2089
β-Carotene and Lutein Protect HepG2 Human Liver Cells against Oxidant-Induced Damage. *Keith R. Martin, Mark L. Failla and J. Cecil Smith, Jr* 2098

Human and Clinical Nutrition

Sodium Excretion Influences Calcium Homeostasis in Elderly Men and Women. *Bess Dawson-Hughes, Sarah E. Fowler, Gail Dalsky and Christopher Gallagher* 2107
Naloxone Administration Does Not Relieve the Inhibition of Gonadotropin Release in Food-Restricted, Lactating Rats. *Michelle K. McGuire, Tami R. Myers, W. Ronald Butler and Kathleen M. Rasmussen* 2113
Dietary Starch Composition and Level of Energy Intake Alter Nutrient Oxidation in "Carbohydrate-Sensitive" Men. *Juliette C. Howe, William V. Rumpler and Kay M. Behall* 2120
Normal Subjects Consuming Physiological Levels of 18:3(n-3) and 20:5(n-3) from Flaxseed or Fish Oils Have Characteristic Differences in Plasma Lipid and Lipoprotein Fatty Acid Levels. *Kim S. Layne, Yeow K. Goh, Jacqueline A. Jumpsen, Edmond A. Ryan, Peter Chow and Michael T. Clandinin* 2130

Nutrient Metabolism

Ornithine-α-Ketoglutarate (OKG) Supplementation Is More Effective than Its Component Salts in Traumatized Rats. *Malayappa Jeevanandam, Nancy J. Holaday and Scott R. Petersen* 2141
Intestinal Epithelia (Caco-2) Cells Acquire Iron through the Basolateral Endocytosis of Transferrin. *Marco Tulio Núñez, Victoria Tapia and Miguel Arredondo* 2151

Embryotoxic Doses of Vitamin A to Rabbits Result in Low Plasma but High Embryonic Concentrations of All-*trans*-Retinoic Acid: Risk of Vitamin A Exposure in Humans. *Georg Tzimas, Michael D. Collins, Heinrich Bürgin, Hans Hummler and Heinz Nau* 2159
Absorption of Polyethylene Glycol Oligomers (330–1122 Da) Is Greater in the Jejunum than in the Ileum of Rats. *Meehye Kim* 2172
Variations in Dietary Protein but Not in Dietary Fat Plus Cellulose or Carbohydrate Levels Affect Cysteine Metabolism in Rat Isolated Hepatocytes. *Deborah L. Bella, Young Hye Kwon and Martha H. Stipanuk* 2179
The Use of ^{15}N-Labeled Dietary Proteins for Determining True Ileal Amino Acid Digestibilities Is Limited by Their Rapid Recycling in the Endogenous Secretions of Pigs. *Pascal Leterme, André Théwis, Etienne François, Piet Van Leeuwen, Bernard Wathelet and Joop Huisman* 2188
Arachidonate and Docosahexaenoate Added to Infant Formula Influence Fatty Acid Composition and Subsequent Eicosanoid Production in Neonatal Pigs. *Meng-Chuan Huang and Margaret C. Craig-Schmidt* ... 2199
A Ferric Reductase Activity Is Found in Brush Border Membrane Vesicles Isolated from Caco-2 Cells. *Cem Ekmekcioglu, Josef Feyertag and Wolfgang Marktl* 2209
Threonine Is Catabolized by L-Threonine 3-Dehydrogenase and Threonine Dehydratase in Hepatocytes from Domestic Cats (*Felis domestica*). *Victoria A. Hammer, Quinton R. Rogers and Richard A. Freedland* 2218

Nutrient Requirements and Interactions

Dietary Oxidized Frying Oil Enhances Tissue α-Tocopherol Depletion and Radioisotope Tracer Excretion in Vitamin E-Deficient Rats. *Jen-Fang Liu and Ching-Jang Huang* 2227
The Water-Soluble Extract of Chicory Reduces Glucose Uptake from the Perfused Jejunum in Rats. *Meehye Kim and Hyun Kyung Shin* 2236
Optimizing the Pattern of Essential Amino Acids as the Sole Source of Dietary Nitrogen Supports Near-Maximal Growth in Kittens. *Timothy P. Taylor, James G. Morris, Neil H. Willits and Quinton R. Rogers* 2243
Dietary Raw Versus Retrograded Resistant Starch Enhances Apparent but Not True Magnesium Absorption in Rats. *Marie-Louise A. Heijnen, Gerrit J. van den Berg and Anton C. Beynen* 2253
The Selenium Requirement for Glutathione Peroxidase mRNA Level Is Half of the Selenium Requirement for Glutathione Peroxidase Activity in Female Rats. *Sherri L. Weiss, Jacqueline K. Evenson, Kevin M. Thompson and Roger A. Sunde* 2260
Vitamin C Nutriture Has Little Short-Term Effect on Vitamin E Concentrations in Healthy Women. *Robert A. Jacob, Mark A. Kutnink, A. Saari Csallany, Malgosia Daroszewska and Graham W. Burton* 2268

LETTERS TO THE EDITOR

The Protein Efficiency Ratios of Animal:Vegetable Protein Mixtures. *Ghulam Sarwar* 2278

Workshop on New Approaches, Endpoints and Paradigms for RDAs of Mineral Supplements

Foreword 2299S
Overview and Purpose of the Workshop on New Approaches, Endpoints and Paradigms for RDAs of Mineral Elements. *K. M. Hambidge* 2301S
Intakes of Minerals from Diets and Foods: Is There a Need for Concern? *J. A. T. Pennington* 2304S
New Approaches to Establish Mineral Requirements and Recommendations: An Introduction. *P. E. Johnson* 2309S
Applications of Compartmental Modeling to Determination of Trace Element Requirements in Humans. *Wayne T. Buckley* 2312S
Statistical Approaches to Establish Mineral Element Recommendations. *G. Beaton* 2320S
Expert Systems for the Evaluation of Data Quality for Establishing the Recommended Dietary Allowances. *J. M. Holden* 2329S
The Use of Fuzzy Logic in Nutrition. *B. Wirsam and E. O. Uthus* 2337S
Endpoints for Determining Mineral Element Requirements: An Introduction. *B. L. O'Dell* 2342S
Bioavailability Algorithms in Setting Recommended Dietary Allowances: Lessons from Iron, Applications to Zinc. *J. Hunt* 2345S
Functional Changes Appropriate for Determining Mineral Element Requirements. *H. C. Lukaski and J. G. Penland* 2354S
The Use of Epidemiologic Approaches and Meta-Analysis to Determine Mineral Element Requirements. *Katherine Tucker* 2365S
Should Intakes with Beneficial Actions, Often Requiring Supplementation, be Considered for RDAs? *G. F. Combs, Jr.* 2373S
How Should Dietary Guidance Be Given for Mineral Elements with Beneficial Actions or Suspected of Being Essential? *Forrest H. Nielsen* 2377S
Safety Limits for Nutrients. *J. N. Hathcock* 2386S
Interests and Values in the Recommended Dietary Allowances (RDAs) and Nutritional Guidelines for Americans. *H. O. Kunkel* 2390S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Magnesium Dietary Recommendations. *M. E. Shils and R. K. Rude* 2398S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Iron Dietary Recommendations. *S. R. Lynch and R. D. Baynes* 2404S
Deliberations and Evaluations of Approaches, Endpoints and Paradigms for Determining Zinc Dietary Recommendations. *H. H. Sandstead and J. Cecil Smith, Jr.* 2410S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Dietary Recommendations about Copper. *L. M. Klevay and D. M. Medeiros* 2419S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Selenium and Iodine Dietary Recommendations. *O. A. Levander and P. D. Whanger* 2427S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Manganese and Molybdenum Dietary Recommendations. *J. H. Freeland-Graves and J. R. Turnlund* 2435S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Boron, Chromium, and Fluoride Dietary Recommendations. *C. D. Hunt and B. J. Stoecker* 2441S
Deliberations and Evaluations of the Approaches, Endpoints and Paradigms for Dietary Recommendations of the Other Trace Elements. *E. O. Uthus and C. D. Seaborn* 2452S

No. 10 OCTOBER 1996

ARTICLES

Biographical Article

James Smith Dinning (1922–1991) *Robert J. Cousins and James A. Olson* 2461

Biochemical and Molecular Roles of Nutrients

Nickel Deficiency Alters Liver Lipid Metabolism in Rats. *Gabriele I. Stangl and Manfred Kirchgessner* .. 2466
N-(4-Hydroxyphenyl)-Retinamide Increases Lecithin:Retinol Acyltransferase Activity in Rat Liver. *Tomokazu Matsuura, Zirong Zhao and A. Catharine Ross* 2474
A Sucrose-Rich Diet Affects Triglyceride Metabolism Differently in Pregnant and Nonpregnant Rats and Has Negative Effects on Fetal Growth. *Ana Soria, Adriana Chicco, Norberto Mocchiutti, Raul A. Gutman, Yolanda B. Lombardo, Antonia Martín-Hidalgo and Emilio Herrera* 2481
Dietary Fat and Sex Modify Heterozygote Effects of the Rat Fatty (*fa*) Allele. *Margaret A. Maher, William J. Banz, Gary E. Truett and Michael B. Zemel* 2487
Dietary Carbohydrate Type and Fat Amount Alter VLDL and LDL Metabolism in Guinea Pigs. *Maria Luz Fernandez, Marcela Vergara-Jimenez, Karin Conde and Ghada Abdel-Fattah* 2494
Ascorbic Acid Deficiency Reduces Hepatic Apolipoprotein A-I mRNA in Scurvy-Prone ODS Rats. *Saiko Ikeda, Fumihiko Horio, Akira Yoshida and Atsushi Kakinuma* 2505

Human and Clinical Nutrition

Vitamin B-6 Status Indicators Decrease in Women Consuming a Diet High in Pyridoxine Glucoside. *Christine M. Hansen, James E. Leklem and Lorraine T. Miller* 2512
Milk Growth Factors Enriched from Cheese Whey Ameliorate Intestinal Damage by Methotrexate When Administered Orally to Rats. *Gordon S. Howarth, Geoffrey L. Francis, Johanna C. Cool, Xiaoning Xu, Roger W. Byard and Leanna C. Read* 2519
Postabsorptive and Postprandial Energy Expenditure and Substrate Oxidation Do Not Change During the Menstrual Cycle in Young Women. *Kathleen J. Melanson, Edward Saltzman, Robert Russell and Susan B. Roberts* 2531

Nutrient Metabolism

Biodiscrimination of the Eight α-Tocopherol Stereoisomers Results in Preferential Accumulation of the Four 2*R* Forms in Tissues and Plasma of Rats. *Harald Weiser, Georges Riss and Alfred W. Kormann* 2539
Rat Intestinal β-Carotene Dioxygenase Activity Is Located Primarily in the Cytosol of Mature Jejunal Enterocytes. *Christelle Duszka, Pascal Grolier, El-Mostafa Azim, Marie-Cécile Alexandre-Gouabau, Patrick Borel and Véronique Azais-Braesco* 2550
The ε-(γ-Glutamyl)lysine Moiety in Crosslinked Casein Is an Available Source of Lysine for Rats. *Katsuya Seguro, Yoshiyuki Kumazawa, Chiya Kuraishi, Hiroko Sakamoto and Masao Motoki* 2557
Feeding Rats the Nitric Oxide Synthase Inhibitor, L-N$^{\omega}$Nitroarginine, Elevates Serum Triglyceride and Cholesterol and Lowers Hepatic Fatty Acid Oxidation. *Abdelkrim Khedara, Yasuhiro Kawai, Jun Kayashita and Norihisa Kato* 2563
Porcine Somatotropin Differentially Down-Regulates Expression of the GLUT4 and Fatty Acid Synthase Genes in Pig Adipose Tissue. *S. S. Donkin, P. Y. Chiu, D. Yin, I. Louveau, B. Swencki, J. Vockroth, C. M. Evock-Clover, J. L. Peters and T. D. Etherton* 2568
Dietary Glutamine Supplementation Prevents Jejunal Atrophy in Weaned Pigs. *Guoyao Wu, Sabina A. Meier and Darrell A. Knabe* 2578

Nutrient Requirements and Interactions

Statistical Interaction Model for Exchangeability of Food Folates in a Rat Growth Bioassay. *Hans-Georg Müller, Matthew R. Facer, Nathan D. Bills and Andrew J. Clifford* 2585

Funds for Nutrition Related Research

Aging. *Pamela E. Starke-Reed* 2593

NUTRITION IN PEDIATRIC HIV INFECTION: SETTING THE RESEARCH AGENDA

Foreword iv
Introduction. *Daniel J. Raiten* 2597S
Keynote Address. *William Paul* 2599S
Overview of Perinatal HIV Infection. *Mary Glenn Fowler and Martha F. Rodgers* 2602S
The Pathogenesis of HIV Disease. *Cecil H. Fox* 2608S
Nutrition and Immune Function: Overview. *William R. Beisel* 2611S
Historical Perspectives on the Evolution in Understanding the Importance of Nutritional Care in Pediatric HIV Infection. *James M. Oleske, Pamela M. Rothpletz-Puglia and Harland Winter* 2616S
Gastrointestinal Tract Function and Malnutrition in HIV-Infected Children. *Harland Winter* 2620S
Malnutrition: Metabolic Changes in Children, Comparisons with Adults. *Tracie L. Miller* 2623S
Newborn Factors in Maternal-Infant Transmission of Pediatric HIV Infection. *E. Richard Stiehm* 2632S
Nutrition and Immune Function II: Maternal Factors Influencing Transmission. *Daniel V. Landers* 2637S
Dysregulation of Growth and Development in HIV-Infected Children. *Steven Hirschfeld* 2641S
Neurobehavioral Manifestations of Symptomatic HIV-1 Disease in Children: Can Nutritional Factors Play a Role? *Pim Brouwers, Charles Decarli, Melvyn P. Heyes, Howard A. Moss, Pamela L. Wolters, Gareth Tudor-Williams, Lucy A. Civitello and Philip A. Pizzo* 2651S
Neurological and Developmental Problems in Pediatric HIV Infection. *Mark Mintz* 2663S
Micronutrient and Cytokine Interaction in Congenital Pediatric HIV Infection. *Susanna Cunningham-Rundles, Sang Hyun Kim, Ann Dnistrian, Lenora Noroski, Celia Menendez-Botet, Claudia B. Grassey, Gilberto Hinds and Joseph S. Cervia* 2674S
Setting the Basic Research Agenda. *Working Group Session Report* 2680S
Setting the Clinical Research Agenda: Domestic and International Perspectives. *Working Group Session Report* 2681S
Coordination of Domestic and International Effort in Executing a Research Agenda in Nutrition and Pediatric HIV Infection. *Working Group Session Report* 2684S
Priorities, Recommendations, and Strategies for Supporting the Research Agenda. *Working Group Session Report* 2688S
Technology Transfer. *Working Group Session Report* 2691S
Workshop Attendees 2694S

ARTICLES

Critical Review

Animal Models for Studying the Genetic Basis of Metabolic Regulation. *Steven E. Nizielski, Pamela S. Lechner, Colleen M. Croniger, Nai-Dy Wang, Gretchen J. Darlington and Richard W. Hanson* 2697

Biochemical and Molecular Roles of Nutrients

Retinyl Ester Storage Is Normal in Transgenic Mice with Enhanced Expression of Cellular Retinol-Binding Protein Type I. *Gunhild Trøen, Winnie Eskild, Sigurd H. Fromm, Sjur Reppe, Astrid Nilsson, Kaare R. Norum and Rune Blomhoff* 2709
Intestinal Synthesis and Lymphatic Secretion of Apolipoprotein A-IV Vary with Chain Length of Intestinally Infused Fatty Acids in Rats. *Theodore J. Kalogeris, Felicia Monroe, Stephen J. Demichele and Patrick Tso* 2720
Temporal-Regulation of Serum Lipids and Stearoyl CoA Desaturase and Lipoprotein Lipase mRNA in BALB/cHnn Mice. *Elizabeth A. Paisley, Eric I. Park, Deborah A. Swartz, Heather J. Mangian, Willard J. Visek and Jim Kaput* 2730
The Formation of Diradylglycerol Molecular Species in Murine Peritoneal Macrophages Varies Dose-Dependently with Dietary Purified Eicosapentaenoic and Docosahexaenoic Ethyl Esters. *Paola A. Marignani and Rolf J. Sebaldt* 2738
Vitamin K Status Influences Brain Sulfatide Metabolism in Young Mice and Rats. *K. S. Sundaram, J.-H. Fan, J. A. Engelke, A. L. Foley, J. W. Suttie and M. Lev* 2746

Community and International Nutrition

Abdominal Circumference Contributes to Absence of Wasting in Brazilian Children. *Juraci A. César, Cesar G. Victora, Saul S. Morris and Cora A. Post* 2752
A Comparison of Food Habit and Food Frequency Data as Predictors of Breast Cancer in the NHANES I/NHEFS Cohort. *Celia Byrne, Giske Ursin and Regina G. Ziegler* 2757
Prelacteal Feeds Are Negatively Associated with Breast-Feeding Outcomes in Honduras. *Rafael Pérez-Escamilla, Sofia Segura-Millán, Judy Canahuati and Hubert Allen* 2765
Iron Deficiency Anemia among Alaska Natives May Be Due to Fecal Loss Rather than Inadequate Intake. *Kenneth M. Petersen, Alan J. Parkinson, Elizabeth D. Nobmann, Lisa Bulkow, Ray Yip and Ali Mokdad* 2774

Human and Clinical Nutrition

Docosahexaenoic Acid–Rich Fish Oil Does Not Affect Serum Lipid Concentrations of Normolipidemic Young Adults. *Tomohito Hamazaki, Shigeki Sawazaki, Etsuko Asaoka, Miho Itomura, Yutaka Mizushima, Kazunaga Yazawa, Toyomi Kuwamori and Masashi Kobayashi* 2784
Serum Acetate:Propionate Ratio Is Related to Serum Cholesterol in Men but Not Women. *Thomas M. S. Wolever, Judlyn Fernandes and A. Venketeshwer Rao* 2790
Source and Amount of Carbohydrate Affect Postprandial Glucose and Insulin in Normal Subjects. *Thomas M. S. Wolever and Claudia Bolognesi* 2798
Prediction of Glucose and Insulin Responses of Normal Subjects after Consuming Mixed Meals Varying in Energy, Protein, Fat, Carbohydrate and Glycemic Index. *Thomas M. S. Wolever and Claudia Bolognesi* 2807
Urinary Excretion of 5-L-Oxoproline (Pyroglutamic Acid) Is Increased in Normal Adults Consuming Vegetarian or Low Protein Diets. *Alan A. Jackson, Chandarika Persaud, Tracey S. Meakins and Rafe Bundy* .. 2813
Urinary Excretion of 5-L-Oxoproline (Pyroglutamic Acid) Is Increased during Recovery from Severe Childhood Malnutrition and Responds to Supplemental Glycine. *Chandarika Persaud, Terrence Forrester and Alan A. Jackson* 2823
7S Globulin from Soybean Is Metabolized in Human Cell Cultures by a Specific Uptake and Degradation System. *Maria R. Lovati, Cristina Manzoni, Alberto Corsini, Agnese Granata, Remo Fumagalli and Cesare R. Sirtori* 2831
Relative Validity of 16-Year Recall of Calcium Intake by a Dairy Questionnaire in Young Dutch Adults. *Desiree C. Welten, Han C. G. Kemper, G. Bertheke Post and Wija A. Van Staveren* 2843

Nutrient Metabolism

Selection for Growth Does Not Affect Apparent Energetic Efficiency of Jejunal Glucose Uptake in Mice. *Yang-Kwang Fan, Warren J. Croom, Jr., Eugene J. Eisen, Linda R. Daniel, Betty L. Black and Brian W. McBride* 2851
Selection for Body Composition Does Not Affect Energetic Efficiency of Jejunal Glucose Uptake in Mice. *Yang-Kwang Fan, Warren J. Croom, Jr., Linda R. Daniel, Anthony R. Bird, Betty L. Black, Eugene J. Eisen and Brian W. McBride* 2861

β-Hydroxybutyrate Oxidation Is Reduced and Hepatic Balance of Ketone Bodies and Free Fatty Acids Is Unaltered in Carnitine-Depleted, Pivalate-Treated Rats. *Peri B. Bianchi and Alan T. Davis* 2867
Carnitine Supplementation Ameliorates the Steatosis and Ketosis Induced by Pivalate in Rats. *Peri B. Bianchi, Denis C. Lehotay and Alan T. Davis* 2873
Roasted Soybeans and an Estrogenic Growth Promoter Affect Growth Hormone Status and Performance of Beef Steers. *Theron S. Rumsey, Theodore H. Elsasser and Stanislaw Kahl* 2880
Dietary Crude Protein Changes Rapidly Alter Metabolism and Plasma Insulin-Like Growth Factor I Concentrations in Broiler Chickens. *R. W. Rosebrough, A. D. Mitchell and J. P. McMurtry* 2888
Pyridoxine 4′-α- and 5′-α-D-Glucosides Are Taken Up and Metabolized by Isolated Rat Liver Cells. *Theresa Joseph, Haruhito Tsuge, Yukio Suzuki and Donald B. McCormick* 2899
Brush Border Membrane Vesicles from Rats and Gerbils Can Be Utilized to Evaluate the Intestinal Uptake of All-*trans* and 9-*cis* β-Carotene. *Amy C. Moore, Eric T. Gugger and John W. Erdman, Jr.* 2904

Nutrient Requirements and Interactions

High Fat Diets Increase Plasma Cholecystokinin and Pancreatic Polypeptide, and Decrease Plasma Insulin and Feed Intake in Lactating Cows. *Byung-Ryul Choi and Donald L. Palmquist* 2913
The Incidence of Swine Dysentery in Pigs Can Be Reduced by Feeding Diets That Limit the Amount of Fermentable Substrate Entering the Large Intestine. *John R. Pluske, Peter M. Siba, David W. Pethick, Zorica Durmic, Bruce P. Mullan and David J. Hampson* 2920
Lipid Infused into the Duodenum of Rats at Varied Rates Influences Food Intake and Body Weight Gain. *Britt Burton-Freeman and Barbara O. Schneeman* 2934

LETTERS TO THE EDITOR

Diet-Induced Nephrocalcinosis in Female Rats. *Mary R. L'Abbé, Keith D. Trick and Bartholomeus Belonje* 2940
Diet-Induced Nephrocalcinosis in Female Rats: A Response to L'Abbé et al. *Catherine A. Peterson, David H. Baker and John W. Erdman, Jr.* 2941

ARTICLES

Biochemical and Molecular Roles of Nutrients

Mitochondrial NADH- or NADPH-Linked Aquacobalamin Reductase Activity Is Low in Human Skin Fibroblasts with Defects in Synthesis of Cobalamin Coenzymes. *Fumio Watanabe, Hisako Saido, Ryoichi Yamaji, Kazutaka Miyatake, Yuji Isegawa, Akio Ito, Toshitsugu Yubisui, David S. Rosenblatt and Yoshihisa Nakano* 2947
Oleic Acid Incorporation Protects Cultured Hamster Fibroblasts from Oxygen-Induced Cytotoxicity. *Michael Kinter, Douglas R. Spitz and Robert J. Roberts* 2952
Vitamin A Deficiency Has Different Effects on Immunoglobulin A Production and Transport During Influenza A Infection in BALB/c Mice. *Nupur N. Gangopadhyay, Zina Moldoveanu and Charles B. Stephensen* 2960

Community and International Nutrition

Anthropometric, Lifestyle and Menstrual Factors Influencing Size-Adjusted Bone Mineral Content in a Multiethnic Population of Premenopausal Women. *James W. Davis, Rachel Novotny, Philip D. Ross and Richard D. Wasnich* 2968

Catch-Up Growth in Children Fed a Macrobiotic Diet in Early Childhood. *Marijke Van Dusseldorp, Ilja C. W. Arts, Jolanda S. Bergsma, Nynke De Jong, Pieter C. Dagnelie and Wija A. Van Staveren* 2977
Increased Energy Intake in Pregnant Smokers Does Not Prevent Human Fetal Growth Retardation. *Siham K. Muscati, Kristine G. Koski and Katherine Gray-Donald* 2984
Body Image Concepts Differ by Age and Sex in an Ojibway-Cree Community in Canada. *Joel Gittelsohn, Stewart B. Harris, Andrew L. Thorne-Lyman, Anthony J. G. Hanley, Annette Barnie and Bernard Zinman* 2990
Dietary Intake of Fat, Fiber and Other Nutrients Is Related to the Use of Vitamin and Mineral Supplements in the United States: The 1992 National Health Interview Survey. *Mary Jane Slesinski, Amy F. Subar and Lisa L. Kahle* 3001
Stunting is Associated with Overweight in Children of Four Nations That Are Undergoing the Nutrition Transition. *Barry M. Popkin, Marie K. Richards and Carlos A. Montiero* 3009
Early Childhood Supplementation Does Not Benefit the Long-Term Growth of Stunted Children in Jamaica. *Susan P. Walker, Sally M. Grantham-McGregor, John H. Himes, Christine A. Powell and Susan M. Chang* 3017

Human and Clinical Nutrition

Dietary Intake Pattern Relates to Plasma Folate and Homocysteine Concentrations in the Framingham Heart Study. *Katherine L. Tucker, Jacob Selhub, Peter WF Wilson and Irwin H. Rosenberg* 3025
Supplementation with an Algae Source of Docosahexaenoic Acid Increases (n-3) Fatty Acid Status and Alters Selected Risk Factors for Heart Disease in Vegetarian Subjects. *Julie A. Conquer and Bruce J. Holub* .. 3032

Nutrient Metabolism

Dietary Essential Fatty Acid Deficiency Differentially Affects Tissues of Rats. *Marguerite Moussa, Jésus Garcia, Jacques Ghisolfi, Brigitte Périquet and Jean-Paul Thouvenot* 3040
An Extract of Soy Flour Influences Serum Cholesterol and Thyroid Hormones in Rats and Hamsters. *Frantzie Balmir, Richard Staack, Elizabeth Jeffrey, M. Delores Berber Jimenez, Ling Wang and Susan M. Potter* 3046
Extrusion and Boiling Improve Rat Body Weight Gain and Plasma Cholesterol Lowering Ability of Peas and Chickpeas. *Yao H. A. Wang and Graeme H. McIntosh* 3054
Antihypertensive Peptides Are Present in Aorta after Oral Administration of Sour Milk Containing These Peptides to Spontaneously Hypertensive Rats. *Osamu Masuda, Yasunori Nakamura and Toshiaki Takano* 3063
Stable Isotope Model for Assessing Production of Short Chain Fatty Acids from Colon-Derived Sugar: Application in Pigs. *C. Lawrence Kien, Robert D. Murray, Anton Ailabouni, Priscilla Powers, Jon Kepner, Lisa Powers and Henri Brunengraber* 3069
Formyltetrahydrofolates Associated with Mitochondria Have Longer Polyglutamate Chains Than the Methyltetrahydrofolates Associated with Cytoplasm in Rat Brain. *G. Franklin Carl, Farlyn Z. Hudson and Byron S. McGuire, Jr.* 3077
Food Intake Is Inversely Correlated with Central Nervous System Histamine Receptor (H_1) Concentrations in Male Sprague-Dawley Rats Fed Normal, Low Protein, Low Energy or Poor Quality Protein Diets. *Akram-Ul Haq, Holly M. Bundrant and L. Preston Mercer* 3083

Nutrient Requirements and Interactions

Efficiency of Lysine or Threonine Retention in Growing Rats Fed Diets Limiting in either Lysine or Threonine. *Mark J. Gahl, Mark D. Finke, Thomas D. Crenshaw and N. J. Benevenga* 3090
Bioavailability for Humans of Deuterium-Labeled Monoglutamyl and Polyglutamyl Folates Is Affected by Selected Foods. *Ming-Min Wei, Lynn B. Bailey, John P. Toth and Jesse F. Gregory III* 3100
Fatty Acid Composition of Erythrocyte Membranes Affects Iron Absorption in Rats. *María C. Rodríguez, María P. Sáiz, J. Muntané and María T. Mitjavila* 3109
Ferrous Iron Uptake but Not Transfer Is Down-Regulated in Caco-2 Cells Grown in High Iron Serum-Free Medium. *Mary Beth Gangloff, Cindy Lai, Darrell R. Van Campen, Dennis D. Miller, Wendell A. Norvell and Raymond P. Glahn* 3118

Neuroscience

Gender Affects Rats' Central Nervous System Histaminergic Responses to Dietary Manipulation. *L. Preston Mercer, Danita S. Kelley, Holly M. Bundrant, Akram-Ul Haq and Laurie L. Humphries* 3128

Issues and Opinions

Acute-Phase Protein Synthesis in Rats Is Influenced by Alterations in Plasma and Muscle Free Amino Acid Pools Related to Lower Plasma Volume Following Trauma. *Ljiljana M. Ševaljević and Gordana D. Žunić* 3136
